LENIN PEAK 2022

WHY WITH US?

- ▶ Safety – very careful conditioning of the route, installing fixed ropes on dangerous tracks, and registration in rescue service
- ▶ Thoroughly arranged uninterrupted logistics and reliable transportation
- ▶ Comfortable accommodation and quality meals three times a day
- ▶ Guide and porter services
- ▶ Our qualified specialists provide you with support from the moment of your request till the end of your trip

LENIN PEAK (7134 M)

Located at the border between Kyrgyzstan and Tajikistan, Lenin Peak is the third highest among the five seventhousanders belonging to the vast territories of the former Soviet Union. The classical route to Lenin Peak does not have any steep rock or icy areas. This characterizes this peak as one of the most accessible summits above 7000 metres.

Nevertheless! You should never forget that 7134m, the actual height of Lenin Peak, encompasses certain risks related to altitude issues. A successful climb demands a very responsible way of organization of any expedition.

To join this endeavor you need an appropriate level of fitness, basic mountaineering skills, prior experience at high altitude, and a strong will required to climb on a 7000m mountain.

Our representative will meet you at the airport.

In case you arrive in Osh in the morning, after meeting at the airport we will transfer you to «Achik Tash» Base Camp on the same day. But, if you arrive in the afternoon, the transfer to the Base Camp will be arranged on the next day. There is an opportunity to spend one night in hotel also after your morning arrival to Osh, hereby, your transfer will be postponed to the next day.

Guests arriving in Osh early in the morning, can have a snack and some rest at our office before the transfer to Achik Tash BC.

As Osh airport has international status, we advise you to check the available charts and flights itineraries from your city/country before choosing the package.

Please note. The packages include a specified number of nights for hotel accommodation, therefore the cost of additional overnights in hotels or early/late check-ins will be charged additionally.
